

With 6,300 employees in research, teaching and administration and its unique profile, TU Dortmund University shapes prospects for the future: the interaction between engineering and natural sciences as well as social and cultural studies drives both technological innovations and progress in knowledge and methodology. It is not only the roughly 34,300 students who benefit from this.

The Faculty of Architecture and Civil Engineering is distinguished by the unique joint program of research and training for both architects and engineers under the “Dortmund Construction Model”.

The Faculty of Architecture and Civil Engineering at TU Dortmund University is seeking to fill the position of a

Professor (W2) in „Building Services“

commencing as soon as possible. The successful candidate will specialize in research and teaching in the field of “Building Services”.

TU Dortmund University is looking for an outstanding personality in the field of Building Services. She/he is expected to reinforce the faculty at the intersection of architecture and technical building services. The candidate should be able to demonstrate her/his expertise in research/development by national and international publications/conference papers in recognised venues and have interdisciplinary and trade-spanning experience with high-quality construction projects.

Applicants are willing to complement the research activities of the Faculty of Architecture and Civil Engineering and contribute to interdisciplinary collaborative research projects within and outside TU Dortmund University.

Experience in the acquisition of third-party funds or in the implementation of third-party funded projects is an asset.

An appropriate contribution to the faculty's curriculum is expected, whereby the content design of the Master's specialisation in Integral Building Services will require particularly intensive commitment. The faculty is currently planning a dedicated building services laboratory for this field.

The successful candidate will possess social and leadership skills and be willing to be involved in academic self-governance.

Preconditions for employment are specified in § 36 and § 37 HG NRW (law governing universities in NRW).

TU Dortmund University strives to increase the number of women in academic research and teaching and therefore explicitly encourages women to apply.

TU Dortmund University is an equal opportunity employer and gives preference to candidates with disabilities if equally qualified.

TU Dortmund University supports the compatibility of work and family life and promotes gender equality in science.

Please send your application, including the usual documents (CV, list of publications, certificates, etc.) by e-mail or on a USB stick by mail in one pdf-file to the following address by 28.10.2020
