

With more than 6,300 employees in research, teaching and administration and its unique profile, TU Dortmund University shapes prospects for the future: The cooperation between engineering and natural sciences as well as social and cultural studies promotes both technological innovations and progress in knowledge and methodology. And it is not only the more than 34,500 students who benefit from that.

The department of International Planning Studies at the Faculty of Spatial Planning at TU Dortmund University invites applications for a fixed term position as

Research Assistant (m/f/d)

which is to be filled for an initial period of 3 years. The duration of the post will be adapted to the aspired qualification target. The salary follows the regulations of the collective bargaining law in salary class 13 TV-L or, if applicable, by transitional law (TVÜ-L). This is a part-time position (75%) offering the possibility of obtaining further academic qualifications (doctorate, postdoctoral lecture studies).

Requirements:

- completed university degree in the field of spatial and infrastructure planning, urban and infrastructure research or any related discipline,
- advanced knowledge of one of these topics: integrated urban and infrastructure development of rapidly growing cities, postcolonial urban and infrastructure studies, urban resource flows and their influence on urban heterogeneity and cohesion,
- in addition to the professional qualification, excellent English skills, good work organization as well as capacity for teamwork are required,
- willingness to engage in university self-government is expected.

Responsibilities:

The department of International Planning Studies (IPS) focuses on teaching and research on urban dynamics, urban resource flows and the role of urban and infrastructure planning in rapidly growing cities in the global South.

Tasks of the employee include:

- participation in the application for new research projects,
- cooperation in research projects and publications,
- participation in teaching of the department (3 SWS)

We offer you:

We offer you an excellent research infrastructure in an innovative environment with a motivated, interdisciplinary and internationally networked team to help you prepare for your PhD (or other academic qualifications).

We explicitly note that applications of severely disabled persons are welcome.

Please send applications with the usual documents, quoting the reference number **w82-19** until 28th November 2019 to:
